

Prepare for your APICS CPIM exam with expert guidance

The APICS Certified in Planning and Inventory Management (CPIM) provides a comprehensive body of knowledge, best practices and standards to allow candidates to better respond to supply disruptions, respond to demand variations and manage supply chain risk.

Earning the APICS CPIM demonstrates mastery of an organization's internal operations and an in-depth understanding of materials management, master scheduling, forecasting, production planning and how it applies across the extended supply chain.

After earning your CPIM you will be able to:

- Increase inventory accuracy and reduce inventory
- Improve forecasting
- Improve the S&OP process
- Manage and apply capacity resource planning
- Work more productively with your company's ERP system

Expert leadership and guidance

Join a course with an experienced instructor

Our certification preparation courses utilize the APICS CPIM Learning System, giving you access to the most comprehensive, effective, and up-to-date exam preparation tools available.

Benefits of an instructor-led course

- Learn from an experienced instructor who provides expertise, insights, and one-on-one guidance
- Network, share experiences, and discuss topics with a diverse group of professionals
- Stay on track to earn your certification with a structured learning experience

In addition to the guidance you'll receive in the classroom, you will also receive the APICS CPIM Learning System. The Learning System provides access to both printed and digital materials. The online platform also includes learning activities, a personalized study experience, microlearning, and convenient access to reading materials.

16%

Increase your salary by up to **16%***.
Earn your CPIM!

*Data based on the 2025 ASCM Salary and Career Report
